

## Conductive Group Recognized by MountainWest Capital Network 2021 Utah 100

**FOR IMMEDIATE RELEASE – October 20<sup>th</sup>, 2021**

Heber City, Utah/ -- The Conductive Group, a leader in conductivity and shielding solutions, has been named to the 2021 Utah 100, MountainWest Capital Network (MWCN) annual list of the fastest-growing companies in Utah. The Conductive Group ranked 69 out of 100 companies and was honored at the 27<sup>th</sup> annual Utah 100 Awards. Recipients of the Utah 100 were chosen by the percentage of revenue increase of each company between 2016 and 2020.

MWCN is the largest business networking organization in Utah, consisting of entrepreneurs, venture capitalists, consultants, legal professionals, bankers, and educators. MWCN seeks to promote and recognize business growth and capital development in the state through a variety of award programs and activities.

"We would like to thank MWCN for this prestigious award," stated Nathan Hansen, President of the Conductive Group. "Nothing great was ever achieved without enthusiasm, and at the Conductive Group we are passionate about providing the best technology, products, and service to our customers. This would not have been possible without our incredible team and partners."

"We congratulate all of this year's Utah 100 companies for building outstanding businesses and making strong contributions to Utah's economy," said Dave Chase, Chairman of the MWCN Utah 100 committee. "These companies further advance Utah's standing as an excellent place to do business."

The Conductive Group consists of three primary business units: 1) Conductive Composites – the advanced materials and technology arm of the Conductive Group, 2) Faraday Cases – providing cases and enclosures that offer both physical and electromagnetic protection, safeguarding sensitive electronics and information systems from electromagnetic threats, and 3) Faraday Structures – protecting critical infrastructure and professional environments from natural and man-made electromagnetic intrusion with a new class of architectural shielding products and solutions.

### About the Conductive Group

We create electrically conductive plastics, composites, and other innovative products that enable a wide-range of solutions for our customers and partners to overcome a spectrum of electromagnetic challenges: [www.conductive.com](http://www.conductive.com)
